Seating/park furniture and sun protection systems

Seascapes and Park Furniture

eibe seating and park furniture
eibini, cité, minimondo
Relaxing and enjoying the green environment while the children romp on the playground, or have a rest themselves.

The range of **eibe** seating and park furniture comprises comfortable seats for all age groups. The product series offer benches and table-and-chair groups, litter bins, bicycle stands, and a pavilion.

Quality features / materials:

- pressure-impregnated timber with the pith removed acc. to RAL : first-grade timber with a 10 years' warranty against rot and fungus
- ash: coarse-grained, elastic hard timber, impregnated according to RAL
- hot-dip galvanized steel metal parts with non-corrosive coating with or without powder coating
- high pressure laminate (HPL): durable, highly scratch-resistant laminate

Overview of materials from page 540.

Seatscapes/Furniture

These **eibini** Seatscapes consist of:

5 x 5 60 176 0 **eibini** Seat and Table Surfaces, 1 x 5 60 177 0 **eibini** Seat Surface with Backrest

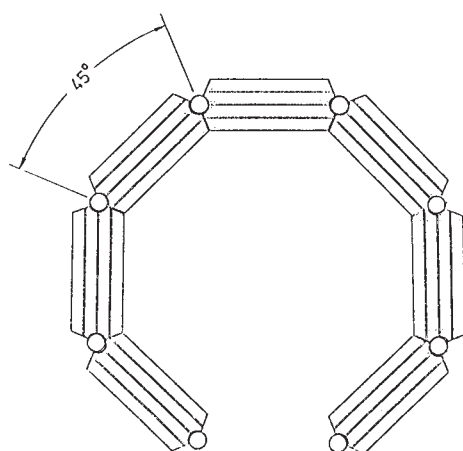

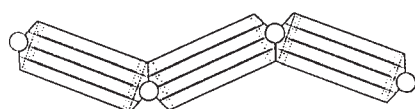

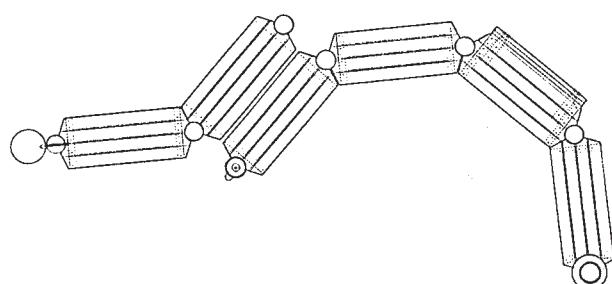

4 x 5 55 005 0 **eibe** Rounded-Head Palisade for Seat Height, Ø14 cm,

1 x 5 55 006 0 **eibe** Rounded-Head Palisade for Table Height, Ø14cm,

1 x 5 59 303 0 **eibini** Litter Bin Ducky, 1 x 5 59 228 0 **eibini** Figure Ducky,

1 x 5 59 235 0 **eibini** Figure Lolly

Examples of possible combinations:

eibini Seat and Table Surfaces

An amazingly simple system – pre-assembled seat and table surfaces are bolted to round, wooden palisades. Owing to the specially designed shape of the seat and table surfaces you can arrange the seats and tables in line with your own individual requirements and available space – either in a straight line or up to an angle of 45°.

Additional charm can be achieved with the integration of our **eibini** Figures. These can be used as posts in a similar way to our rounded-head palisades.

The **eibe** rounded-head palisades for seat and table height are supplied with ground anchors and screws and are suitable for bolting to foundations.

Design and functionality

The design of these awnings combine elegance and mature functionality.

It is very important to protect playing children effectively from solar radiation.

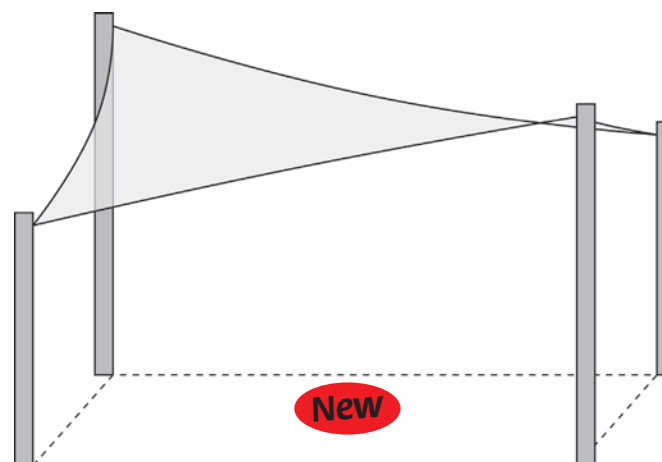

The awnings offer shade, set colorful accents, and ensure that children playing outdoors will not be harmed by excessive insulation, in short enhances the quality of the playground. And we know that the quality of the play environment significantly influences the children's decision to pay frequent and extensive visits to the play area.

Extremely long useful life and high dimensional stability, also with temperature fluctuations, thanks to the utilization of tested materials of prime quality.

- Can be inconspicuously integrated into all types of architecture
- Protection from heat
- Best protection from UV radiation
- Protection from rain
- Provides shade without obscuration
- Flame-resistant, nontoxic materials
- Polyester fabric with dirt-repellent, low-maintenance coating
- Safety-tested high-quality net fabric, environmentally friendly
- Long useful life, extreme dimensional stability, tear-proof
- Wind- and weather-proof
- Simple mounting and dismantling

Custom-made units are available in any shape and size. Other colors on request. We can offer you a tailor-made solution covering everything from planning advice to installation.

Caution: As awnings are not dimensioned for snow loads, they must be dismantled in winter.
